NO. 26.

St. John's Day at Bowen.

The Masons, Odd Fellows and Junior Order American Mechanics held a joint celebration at Bowen last Friday the 24. The three orders met at the Masonic Hall and formed a line of march to the river and back to the stand where Joseph C. Lykins, of Camp-ton, addressed the audience in behalf of Freemasonry. Ad-journed for dinner. The Rebec-cas spread a nice dinner for mem-bers of their order.

After dinner they marched a-gain to the river and back led by the Odd Fellows to the stand where J. H. Johnson, of Yale, Ky., addressed the crowd in be-half of the Juniors. He was fol-lowed by Mr. Lykins in behalf of the Odd Fellows. The Clay City Cornet Band furnished music for the occasion.

The Brethren at Bowen extend-ed a cordial and welcome hand to their visitors and everybody enjoyed themselves. The best of order prevailed during the day.

A Correction.

In last week's issue we gave an account of a ball game to be play-ed in the ball park the proceeds of which to go to the benefit of

the Christian church. The game was not played or authorized to be played by the church. The game was made up, as we have been lately informed, solely by the players who promoted the game independent of the church organization with the intention of tendering the church the money independent of how it was re-ceived. This has been done and it is now a question whether or not the church will receive the money. So far the money has not been accepted.

Our statement is true in so much that the game of ball was played and for the purpose men-tioned, but the church had noth-ing whatever to do with the game nor did it approve of it. The players played the game on their own hook honestly thinking they were agreeably doing the church a financial favor. The money was honestly and fairly earned and tendered the church, but the officers of the church think they can not conscientiously accept it.

The explanation is made at the request of the officers.

The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour, if it's in good condition. If the movement is slug-gish, there's something wrong. It will move 3,558 miles in a year, and requires less than one-tenth of a drop of oil to make it run. But it needs that little badly. The least degree of friction on the bearings alters the motion. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay and satisfy you.

FOR ASSESSOR.

JAMES W. WOOLERY is a candidate

The Roosevelt Convention.

The Roosevelt convention under
the nom de plume, Republic-
an convention, was pulled off
last week in Chicago according to
the program specially prepared
and approved of by the Czar.
The length of the formal occasion
was stretched out to three days
when the business could have
been attended to in thirty min-
utes if the boss had have wished
it. The result of its workings
leaked out two weeks before hand
and as expected Senator Fair-
banks was attached to the ticket
for Vice President.

We have but one objection to
the ticket or teddy rather, we
would like, when a Democrat
goes into the White House, for
him to be able to say, "In com-
ing here, I had to defeat a man
who bore the name of gentle-
man." But the Democrat who goes
into the President's chair next
March can not so boastfully ex-
press himself. He can merely
say, "I am 'President of a great
country elected by the people
without opposition.'"

The following lines picture
Roosevelt in his own mind:

"Accomplished as a King should be,
And autocratic as a Czar;
To him all classes bow the knee,
In spotless Washington afar,
And, while his jealous rivals scoff,
He wears a smile that won't come off
At 6 a. m. he shoots a bear,
At 8 schools a restive horse,
From 10 to 4 he takes the air
(He doesn't take it all, of course),
And then at 5 o'clock, maybe,
Some colored man drops in to tea."

Citizens Dismayed.

All citizens who value Ameri-
can institutions are dismayed.
They see government by corpo-
rate corruption yielding its nat-
ural fruit in unbridled disorder
and military tyranny. The les-
son of Colorado, full of sinister
warring, is as broad as the union.
It concerns every man who cares
for the preservation of the legal
rights of the individual, and it
concerns every man also who
cares for the maintenance of res-
pect for property.

More than that, the trusts
which procure or prevent legisla-
tion by pull and boodle strike at
the security of everybody else's
property.

In that case will the people
continue to uphold a trust loving
and a trust protecting adminis-
tration? Think it over.

The first Roosevelt and Fair-
banks Club in the country was
organized in Richmond, Va., Sat-
urday night. It is composed of
negroes. The principal speaker
was W. D. Crum, who was ap-
pointed by Roosevelt Collector
of Customs at Charleston, S. C.

There is more Catarrh in this sec-
tion of the country than all other
diseases put together, and until the
last few years was supposed to be
incurable. For a great many years
doctors pronounced it a local disease
and prescribed local remedies, and
by constantly failing to cure with
local treatment, pronounced it in-
curable. Science has proven cat-
arrh to be a constitutional disease
and therefore requires constitu-
tional treatment. Hall's Catarrh
Cure, manufactured by F. J. CHE-
NEY & Co., Toledo, Ohio, is the
only constitutional cure on the mar-
ket. It is taken internally in doses
from 10 drops to a teaspoonful.
It acts directly on the blood and
mucous surfaces of the system.
They offer one hundred dollars for
any case it fails to cure. Send for
circulars and testimonials.

Dr. Bertiam Smith.

DR. BERTIAM SMITH, of Chicago, who, after practicing dentistry for eight years met with an accident, by which his right arm was broken in three places, his right thumb dislocated, and his right leg broken.

Under good treatment his life was saved, but he lost the use of his right hand. His long and expensive sickness took every thing he had. He learned to write with his left hand and for a year made his living with his left hand.

Dr. Hyde suggested that he go at some hard work so that he would have to use his right hand and perhaps in the course of time he would regain the use of his fingers. So he worked in a stove factory for six months. The factory shutting down unexpectedly left him penniless, and it was now a case of "root hog or die." He applied to J. B. Ransom & Co., of Nashville, for a job, only to be told "no." Starting off he was stopped by Mr. Wm. Hartwell, the manager of a box factory, said, "I will give you work." He worked five months for Mr. Hartwell when he came to Clay City. Not wanting to lose so valuable a friend, who had encouraged him, Bert followed him to Clay City.

By constant work in the box factory he regained the use of four fingers in a year. Last winter he fell flat-handed on the ice and knocked his thumb back to position. So he began to work nights on dental furniture and machinery. Having regained perfectly the use of both broken limbs, he will at once open the most complete dental office in Clay City east of Lexington.

Dr. Smith comes of a very good family. His father was the late Dr. W. R. Smith, well known for his articles in the Medical Brief. His grand-father was the late Dr. Alexander Holden, for many years Mayor of Cairo, Ills., and the leading dentist there.

His mother, Mrs. Annie E. Smith, author, artist and literary leader where ever she goes, now resides at Peoria, Ills., where she is president of the Ladies' Twentieth Century Club. She will soon come to live with her son.

Dr. Bertiam Smith graduated from the Cairo, Ills. Latin High School in 1887. He graduated from the Kentucky University Commercial College in 1888 where he received the regular and a special Diploma. He graduated in 1892 from the Chicago College of Dental Surgery where he received the degree of Doctor of Dental Surgery.

He will open his office either on July 5 his birthday, or on Aug. 23, the second year of the box factory.
